July 18, 2018

I have been an electrical and HVAC subcontractor for Ghia Construction Company for over 10 years. As a GC, Ghia Construction Company is extremely knowledgeable, efficient, honest, and fair. Their field crew is very skilled; and the owner, Bob Ghia, expects each job to be done as proficiently as possible and always on schedule, which they continually achieve. I can further attest that Ghia Construction Company demands only the highest quality work from their own staff and, of course, any of their subcontractors. I would highly recommend Ghia Construction for all your building needs, no matter how big or small.
